**5. SYSTEMATIC VEHICLE-SPECIFIC MAINTENANCE**

To comply with Federal Motor Carrier Safety Administration ("FMCSA") Regulation 396, for each vehicle listed on this Schedule B, ATC agrees to complete and provide records to FEC with systematic vehicle-specific maintenance intervals based on either the Original Equipment Manufacturer ("OEM") recommendation or a designated systematic maintenance interval determined by ATC. These records shall include a means to indicate the nature and due date of the various inspection and maintenance operations to be performed.

If ATC elects to follow a designated systematic interval determined by ATC, for any maintenance item not specifically referenced on the records provided by ATC, ATC agrees to follow the manufacturer's recommended maintenance schedule. ATC shall indemnify FEC against, and hold it harmless from, all claims for liability resulting from ATC's deviation from the manufacturer's recommended maintenance schedule. FEC assumes no liability should ATC's non-compliance with the manufacturer's recommended maintenance schedule result in the voiding of any warranty associated with the above-referenced Equipment.
